

Hour meters / timers, electromechanical

Timers, round design

With LED run indicator (AC+DC)

HR 47

The hour meter HR 47 with run indicator feature a very high shock resistance.

These panel-mount counters for round panel cut-outs can be used in many different fields of application. These non-resettable counters are very robust and extremely tamper-proof.

Characteristics

- 7-digit hour meter
- For voltage ranges 10...80 V DC, 100...130 V AC and 187...264 V AC
- Magnified large figures
- Protection IP65 on the front and rear sides
- Suitable for any mounting position
- Without reset, and thus tamper-proof
- High shock and impact resistance

Benefits

- With run indicator (AC version), optional LED (DC version)
- For panel cut-out \varnothing 50.5 mm with front panel dimensions \varnothing 58 mm
- Simple and secure mounting with screwed clamping clip

Applications

General time measurement, construction machinery and industrial trucks, small appliances, UV lamps, display panels in vehicles, compressors, air-conditioning equipment, etc.
